

Digital Bridge Partners (“DBP”) is a blockchain and crypto asset fund of funds. Our team uses unparalleled relationships and investment management experience to identify funds which are positioned to outperform the broader crypto market. This strategy enables DBP to lower volatility while improving risk-adjusted returns.

## Our Strategy

- Invest in 8-10 underlying crypto funds with distinct strategies
- Access closed funds and funds with limited availability/high minimum investments
- Utilize funds with systematic approaches to alpha
- Seed investing in early stage blockchain companies
- Seek deliberate exposure to the protocol layer of the ecosystem through multiple investments
